HOW DOES IT **WORK?**

There are *two options*
to bring this training to your agency.

option one **HOST US**

Under this option, your agency provides the training space to Blue to Gold and helps with the promotion of the training to surrounding agencies. We handle all registrations and customer service and in addition market the class heavily. In return we offer the host agency a free seat for every 10 registrations.

option two **AGENCY TRAINING**

If you desire agency wide, or have a good number of officers in need of training, this option will make economical sense. Our focus is purely on your agency and officers needs. Customization is available under this option and we can mix and match the training to address any pressing issues as well.
