Drugs on Wheels: Highway Interdiction and Case Law Essentials

In the high-stakes game of drug trafficking, the nation's highways have become the front lines. Drugs on Wheels: Case Law for Highway Interdiction offers an incredible resource for all who are dedicated to combating the transportation of illegal drugs and human smuggling on our streets. This course offers an in-depth look at the case law relevant to these issues, considers the factors courts have recognized as most valuable in exposing this criminality, and provides techniques to identify reasonable suspicion and probable cause. After taking this course, officers will have a superior knowledge of what the Fourth Amendment allows with regard to stopping and searching vehicles, and attendees will be better prepared to articulate the reasonableness of their actions. Whether you are new to highway interdiction, you want more tools for proactive policing, or you are a seasoned veteran who knows you must never stop learning and always develop your skill set, this course will keep you one step ahead in the fight against drug trafficking. (Book included with each registration: Drugs on Wheels - Seconds Edition)
