Advanced Search & Seizure

You'll get hands-on with the legal foundations behind search and seizure—when you can act, when you need consent or a warrant, and what happens when you cross the line. We'll cover both federal and state cases to make sure you're ready no matter where you work. Through case studies and real-world scenarios, you'll build the confidence to handle these situations the right way.

Bulletproof Report Writing

You'll learn how to put your observations and actions into words that make sense to judges, prosecutors, and defense attorneys alike. From explaining probable cause to describing what you saw and did, you'll build the skills to write reports that are thorough and easy to follow. The course also shows how solid documentation can discourage suppression motions and help you recall key details when testifying in court.

Advanced Interdiction Case Law: Drugs on Wheels

Officers will explore the factors courts have deemed most relevant for exposing drug and human smuggling operations on the road. The course reinforces the importance of understanding the Fourth Amendment, providing officers with the confidence to justify their actions and protect their cases from legal challenges. Whether an officer is new to interdiction, looking to expand proactive policing tools, or a seasoned veteran determined to stay sharp, this course helps keep them one step ahead in the fight against trafficking. Each registration includes a copy of Drugs on Wheels – A Law Enforcement Guide to Highway Interdiction as a valuable resource.
