### Advanced Search & Seizure (26CPT085)

Knowing when and how to conduct a search or seizure is a critical part of good police work. This course breaks down the Fourth Amendment and how it applies on the street, giving officers the tools they need to make solid, defensible decisions in the field. You'll get hands-on with the legal foundations behind search and seizure—when you can act, when you need consent or a warrant, and what happens when you cross the line. We'll cover both federal and state cases to make sure you're ready no matter where you work. Through case studies and real-world scenarios, you'll build the confidence to handle these situations the right way.
