Advanced Search & Seizure

Knowing when and how to conduct a search or seizure is a critical part of good police work. This course breaks down the Fourth Amendment and how it applies on the street, giving officers the tools they need to make solid, defensible decisions in the field. You'll get hands-on with the legal foundations behind search and seizure—when you can act, when you need consent or a warrant, and what happens when you cross the line. We'll cover both federal and state cases to make sure you're ready no matter where you work. Through case studies and real-world scenarios, you'll build the confidence to handle these situations the right way.

Response to Resistance: The Legal Realities of Use of Force in Modern Policing

Good tactics are essential for keeping communities safe, but understanding the legal side of use of force is just as critical. This course gives officers a solid grasp of the case law that shapes use of force decisions, helping them recognize legally significant factors when responding to resistance. The course also dives into how stress impacts human performance, and explains both the benefits and limitations of body-worn cameras in documenting use of force incidents. Whether an officer is on patrol, working as a detective, or serving in a supervisory or leadership role, a strong understanding of the legal realities of use of force is key to modern policing. A thorough knowledge of the law not only helps reduce unnecessary force incidents but also decreases liability for agencies—empowering officers to provide the highest level of service to their communities.
