Advanced Search & Seizure

Knowing when and how to conduct a search or seizure is a critical part of good police work. This course breaks down the Fourth Amendment and how it applies on the street, giving officers the tools they need to make solid, defensible decisions in the field. You'll get hands-on with the legal foundations behind search and seizure—when you can act, when you need consent or a warrant, and what happens when you cross the line. We'll cover both federal and state cases to make sure you're ready no matter where you work. Through case studies and real-world scenarios, you'll build the confidence to handle these situations the right way.

Advanced Criminal Investigations

Tough cases call for solid legal skills and a deep understanding of what the courts expect from your work. This course builds on what you already know and takes it up a notch. It helps you tackle advanced search and seizure issues, manage informants, and navigate tricky legal situations with confidence—all while making sure your cases stand up in court. You'll learn about complex legal issues that come up in major cases—like search warrants, managing informants, and working in high-risk environments. The course highlights the importance of knowing the law inside and out so that your work is solid in court. You'll also learn practical ways to handle arrests, searches, and other challenges without getting tripped up by technicalities.
